BRING ON SUMMER

We love the outdoors all year round, but there is just something special about Summer.

Whether it's waking up at the crack of dawn to get to the boat ramp before everyone else, or learning that new trick on your wakeboard before your mates or maybe it's just cooking a few snags on the barbie by the river, however you do Summer is perfect.

We'll see you out on the water.

**Close off Friday
25 August 2023**

SINCE 1986

For 37 years we have been providing top quality water safety equipment to ensure that everyone can enjoy their time safely on the water.

Our #1 focus, from Day 1, has been safety. Whether it is a life vest to keep you safe whilst wakeboarding, venturing on a PWC, or a wetsuit to protect from the cold weather conditions or UV50+ protection with a hydro tee, we innovate to make life much more fun by providing premium quality water safety equipment for you and your crew that is comfortable, long lasting and keeps you looking good.

With high quality products designed to last, we emphasise long product lifecycle over fast fashion. We use a non-petroleum alternative to neoprene in our wetties, johns and tour coats and are constantly looking for more sustainable options throughout our product range and supply chain.

The only thing better than heading out on the water, with perfect weather is coming home safe at the end of the day.

THE JETPILOT FAMILY

At Jetpilot, our goals are not just to sponsor the "World Champion." We want to support athletes that embody what it is to be a part of the Jetpilot family, we want those riders who absolutely froth the sport and water-loving lifestyle! Whether it be wakeboarding behind a boat or at a cable park, or even winning in the streets, or PWC racing, or even just being a professional outdoors adventurer, we love passionate people and we want to see them succeed. Don't get us wrong, there is no-one more stoked than us when we see our athletes claim that #1 spot.

SUSTAINABILITY

 **MADE WITH
ECOPRENE**

Our Ecoprene vests, on average, save 10 plastic bottles from entering the ocean.

Here at Jetpilot, we are committed to transitioning more and more products to be eco-friendly and use Ecoprene. By next summer, we are aiming to have at least 70% of our range using Ecoprene.

LIMESTONE NEOPRENE

A NON-PETROLEUM BASED ALTERNATIVE

WARMER ♦ LIGHTER ♦ MORE FLEXIBLE ♦ MORE DURABLE

A neoprene developed from Limestone (calcium carbonate) rather than petroleum based that has set the standard in neoprene. Used in all Jetpilot neoprene products (long johns, tour coats and wetsuits).

Warmer – Due to nitrogen cells captured in neoprene during Limestone processing treatment providing better thermal insulation and heat retention.

Lighter – Micro bubble structure created during processing helps to ensure water doesn't penetrate or weigh down the neoprene.

More Flexible – Not only is the makeup of Limestone Neoprene more stretchy, it retains its form over time, meaning it won't stretch out from the original fit, season after season.

More Durable – Less prone to tears due to cell construction in neoprene creation.

HERE'S TO THE CUP

PATTAYA CITY, THAILAND

The Jetski World Cup is the biggest event of the year. With the biggest prize purse of the year, the entire global Jetski racing community showed up in full force.

Held over 4 days, we saw multiple world champions crowned and some unfortunate heartbreak moments.

Our Jetpilot team riders shone bright throughout the entire event. There are too many fantastic results to list, but safe to say that we have a few World Champions as part of our team.

We are honored to be able to support these world class athletes and help them achieve their goals.

Between the highs and the lows, being fully immersed in the local culture, this was an event that we will never forget.

PRINT ISN'T DEAD

In this fast paced digital world, to create a print publication might seem like a mistake to a lot of people, but looking at the success of the Copy Cats Club makes a very compelling argument for the print industry.

Always at the forefront of trends and design, Sina, the creator of the Copy Cats Club, has created a place for all female riders to gather and build a community of like-minded forward thinking shredders.

At Jetpilot, we are thrilled to be working with Sina, taking her vision and creating a vest that will be at the forefront of design and fashion for another year.

CONEHEAD TECHNOLOGY™

Conehead Technology™ allows us to build a lightweight helmet with a more comfortable feel, without compromising your safety.

Impact force directed towards head. Head pushing in opposite direction.

On impact the cones compress, directing the energy and force sideways withing the foam. As the base of the cones compress, they gradually slow down the head.

Impact force directed towards head. Head pushing in opposite direction.

PERFORATED AIRPRENE

Internal padding has been ergonomically designed to keep your head safe in advanced comfort. Our Perforated Airprene liner increases water release and draining, reducing drying time.

SIZE CHARTS

There is nothing worse than having the wrong fit. Well there are a few things that are worse, but we have made extensive size charts to ensure that you get the correct fit the first time, every time.

Everyone and every body is different, please use these size charts as a guide only.
